

Old School Nerd
by Dominic Loise

Tapping into Wisdom Of Solomon

seeing long game finally
never fit into this world
only meant for quick doses
in and out like
say the magic word
lightning

The kids are all wizards now

everyone has their house
they all confer in capes
should have seen the spell
crackling from the beginning
even Elvis cosplayed
the Magic Bus believed
say the magic word
furthur

Thought the Seven Deadly Sins

won out with adulthood
never fought a corporate giant
others had supervision
squinting I was shortsighted

forgot the rock was named

say the magic word

eternity

Mad scientists monologue

plotting their concluding statements

magic can save this new world

the spell was cast back in

The Age of Myth

you are your own heroes now

say the magic word

change
